PROFESSIONAL EXPERIENCE

AIRFIND

Jun 2022 – Present | Remote (Florida, US)

Publisher Solution Specialist

- Lead the end-to-end technical implementation, seamless onboarding, and ongoing support for **Tier 1 and Tier 2 publisher accounts** across native and search ad solutions (Google, Microsoft Bing, Yahoo), driving a **30% increase in publisher revenue**.
- Automate campaign management and ad serving processes via Google Ads API and Microsoft Advertising API, **reducing publisher onboarding setup times by 20%**.
- Engineer custom ad units, native feeds, and responsive user interface components using JavaScript, HTML, and CSS, maintaining a **99% customer satisfaction (CSAT) score**.
- Serve as primary technical escalation point for critical publisher inquiries and tier-3 support, collaborating across Engineering, DevOps, Product, and Account Management teams.
- Build real-time performance and log monitoring dashboards in Kibana, **cutting response time for critical site issues by 25%**.
- Enforce IP filtering and user click-limiting rules to mitigate ad fraud, protecting publisher inventory quality and reducing fraudulent traffic by **15%**.

TABOOLA INDIA PRIVATE LIMITED

Gurgaon, India

Senior Implementation Representative (Dec 2021 – Jun 2022) | Implementation Representative (Mar 2019 – Dec 2021)

- Managed technical onboarding and dynamic placement lifecycles across **Taboola Feeds, Widgets, Read More, Explore More, Video units, Footer Overlays, and Next Up** for global Tier 1 enterprise publishers and Tier 2 strategic accounts across EMEA, APAC, LATAM, and US regions.
- Delivered over **100+ complex third-party dynamic integrations monthly**, managing custom layout code implementations in HTML, CSS, and JavaScript with MySQL content mapping to achieve **99% customer satisfaction**.
- Provided dedicated technical support and post-launch troubleshooting, directly assisting publisher engineering teams and Account Directors to ensure high performance and SLA compliance.
- Acted as Subject Matter Expert (SME) for Newsletter Organic Content Mapping, implementing metadata parsing, XPath extraction rules, and URL filtering.
- Spearheaded key technical initiatives including **ABP Testing** and **Mission America**, reducing client escalations by **20%**.
- Collaborated with sales and solution engineering teams on pre-sales technical architecture reviews, contributing to deal closures exceeding **\$500,000**.
