PROFESSIONAL SUMMARY

7+ years of ad tech experience running programmatic campaigns across DSPs and SSPs. Comfortable using DV360, Google Ad Manager and similar platforms to manage targeting, bidding and budget allocation, with a consistent record of improving ROI, CPA and CPM. Good at turning programmatic performance data into clear, client-facing insights and dashboards.

TECHNICAL SKILLS

AdTech & Platforms: DV360, Google Ad Manager (GAM), Google AdSense, Taboola, Aniview, ClickFlare, 3rd-Party Integrations

Programmatic & Campaign Optimization: DSP Management, SSP Optimization, ROI Optimization, CPA Analysis, CPM Management, CTR Improvement

Data & Analytics: Google Analytics, GA4, Looker Studio, Kibana, Performance Metrics, KPI Tracking

Tools & Technical: Salesforce, Jira, HTML, CSS, JavaScript, MySQL, API Integration

PROFESSIONAL EXPERIENCE

AIRFIND | Jun 2022 – Present | Remote (Florida, US)

Publisher Solution Specialist

Products: Yahoo Search Ads, Google CSE, Yahoo D2S/N2S, Google RSOC, Google Rewarded Web, Bing Native Display

- Implemented and managed search monetization campaigns across these ad products.
- Onboarded publishers onto these ad products and resolved implementation issues, contributing to a 30% revenue increase.
- Built and executed targeting strategies across DSPs and SSPs, improving performance metrics by 25%.
- Tested new programmatic ad formats and monetization strategies that lifted CTR by another 10%.
- Resolved 1,000+ deployment and troubleshooting tickets tied to programmatic campaign delivery across Airfind's publisher network.
- Built and submitted websites for Google AdSense and Google Ad Manager approval, then tracked campaign performance across both platforms alongside GA4.
- Analyzed campaign performance using Kibana, an internal performance dashboard and Looker Studio.
- Implemented tracking pixels for TikTok, Facebook and GDN, along with postbacks through ClickFlare and standard postback setups.
- Walked clients through programmatic performance data and KPIs, reaching a 99% client satisfaction rate.

TABOOLA INDIA PRIVATE LIMITED | Mar 2019 – Jun 2022 | Gurgaon, India

Senior Implementation Representative (Dec 2021 – Jun 2022) | **Implementation Representative (Mar 2019 – Dec 2021)**

Products: Feeds, Widgets, Read More, Explore More, Video, Footer Overlays, Next Up

- Analyzed campaign and team KPIs on a weekly, monthly and quarterly basis, optimizing performance whenever metrics fell short of target.
- Served as SME on organic content mapping, applying metadata, X-path and inclusion/exclusion rules to live newsletter placements.
- Coordinated with Account Managers on status updates and technical requirements for publisher campaigns.
- Delivered training sessions on new product launches and led daily team coordination.
- Implemented and mapped these Taboola ad products using JavaScript, CSS and SQL.
- Used SQL queries to map organic content and enable product profiles across live campaigns.

- Consumed API calls to make modifications to live feeds.
- Delivered 100+ third-party integrations single-handedly in a month across global publisher accounts.
- Tracked implementation requests and technical issues daily in Salesforce and JIRA.

VERIFACTS SERVICES PVT. LTD. | Nov 2018 - Feb 2019 | Gurgaon, India

Client Account Manager

- Managed background verification processes for 3-4 clients from initiation through final report generation.
- Coordinated with clients and internal stakeholders throughout the verification process to keep cases on track.

AUTHBRIDGE | Mar 2017 - Oct 2018 | Gurgaon, India

Process Specialist

- Quality-checked background verification work completed by other departments before it reached the client.
- Compiled and emailed final verification reports to clients.

KEY PROJECTS

Yahoo Search Ads QA (Airfind): Quality-checked Yahoo Search Ads implementations against Yahoo's official checklists across 50+ client accounts.

Newsletter Organic Mapping (SME): Applied metadata and X-path rules to map organic content; led migration of tickets from JIRA to Salesforce.

Mission America: Urgent implementation support that reduced escalations and improved CSAT and resolution time.

ABP Testing: Built and QA'd ABP widgets and feeds across the publisher base as the project lead.

Onboarding Process: Contributed to onboarding documentation and trained new joiners, tracking ramp-up timelines.

Guru Cards: Created knowledge cards to cut repeat queries, then tracked usage and time saved.

Request Acknowledgement Improvement: Built a standard acknowledgement template and trained the team on it.

Client to Support (C2S): Coordinated direct implementation and support for low-revenue publisher accounts.

Team Knowledge Pages: Built knowledge base pages used globally across teams.
