Faridabad, India | +91 9015132120 | anil.k1202@gmail.com | linkedin.com/in/kumar--anil

PROFESSIONAL SUMMARY

7+ years of ad tech experience helping publishers implement, optimize and troubleshoot digital ad campaigns across native, search and programmatic channels. Comfortable pairing hands-on ad tag and API work with clear, client-facing reporting that keeps publisher partners informed. Focused on owning the relationship from onboarding and implementation through ongoing optimization and support.

TECHNICAL SKILLS

AdTech & Platforms: Google Ad Manager (GAM), Google AdSense, DV360, Taboola, Aniview, ClickFlare, 3rd-Party Integrations

Publisher Solutions: Ad Implementation, Ad Tag & Pixel Deployment, Troubleshooting, Fraud Detection, Publisher Support

Data & Analytics: Google Analytics, GA4, Looker Studio, Kibana, Performance Reporting

Tools & Technical: Salesforce, Jira, JavaScript, HTML, CSS, SQL, MySQL, API Integration

PROFESSIONAL EXPERIENCE

AIRFIND | Jun 2022 – Present | Remote (Florida, US)

Publisher Solution Specialist

Products: Yahoo Search Ads, Google CSE, Yahoo D2S/N2S, Google RSOC, Google Rewarded Web, Bing Native Display

- Served as the main technical contact for Airfind's publisher partners, implementing these search monetization products across their accounts.
- Onboarded publishers onto these ad products and resolved implementation issues on their end, contributing to a 30% revenue increase.
- Built and deployed ad tags and pixels for publisher sites, including TikTok, Facebook and GDN, plus postbacks through ClickFlare and standard setups.
- Resolved 1,000+ publisher support and deployment tickets, working closely with DevOps, Account Management and Product teams.
- Built and submitted publisher websites for Google AdSense and Google Ad Manager approval, then tracked performance across both platforms alongside GA4.
- Monitored publisher performance using Kibana, an internal dashboard and Looker Studio, catching issues early.
- Cut fraudulent activity by 15% through IP click and user click limiting while introducing new ad formats that lifted publisher CTR by 10%.
- Trained publisher partners on interpreting ad analytics and KPIs, reaching a 99% client satisfaction rate.

TABOOLA INDIA PRIVATE LIMITED | Mar 2019 – Jun 2022 | Gurgaon, India

Senior Implementation Representative (Dec 2021 – Jun 2022) | **Implementation Representative (Mar 2019 – Dec 2021)**

Products: Feeds, Widgets, Read More, Explore More, Video, Footer Overlays, Next Up

- Led client progress meetings with Account Managers and Account Directors across regions, resolving technical challenges for publisher accounts.
- Served as SME on organic content mapping for newsletter publishers, using metadata and X-path rules to apply inclusion, exclusion and URL extraction.
- Delivered training sessions for the team and coordinated status updates with Account Managers on publisher requests.
- Led daily board management and shift coordination to keep publisher support running smoothly.

- Implemented and QA'd these Taboola ad products for publishers, from ticket intake through live publishing.
- Supported publishers and partners across EMEA, APAC, US and LATAM on technical implementation and troubleshooting.
- Delivered 100+ third-party integrations single-handedly in a month, keeping publisher launches on schedule.
- Built CSS-based layout changes on live feeds and widgets to match publisher requirements, contributing to a 99% customer satisfaction rate.
- Joined client calls to help publishers work through implementation issues and tracked requests daily in Salesforce and JIRA.

VERIFACTS SERVICES PVT. LTD. | Nov 2018 – Feb 2019 | Gurgaon, India

Client Account Manager

- Managed background verification processes for 3–4 clients from initiation through final report generation.
- Coordinated with clients and internal stakeholders throughout the verification process to keep cases on track.

AUTHBRIDGE | Mar 2017 – Oct 2018 | Gurgaon, India

Process Specialist

- Quality-checked background verification work completed by other departments before it reached the client.
- Compiled and emailed final verification reports to clients.

KEY PROJECTS

Yahoo Search Ads QA (Airfind): Quality-checked Yahoo Search Ads implementations against Yahoo's official checklists across 50+ publisher accounts.

Mission America: Urgent implementation support for publishers on time-sensitive requests, reducing escalations and improving CSAT.

Newsletter Organic Mapping (SME): Mapped organic content for newsletter publishers using metadata and X-path rules; led the JIRA-to-Salesforce migration.

Client to Support (C2S): Coordinated direct implementation and support for low-revenue publisher accounts.

Onboarding Process: Contributed to onboarding documentation and trained new joiners, tracking ramp-up timelines.

Guru Cards: Created knowledge cards to cut repeat publisher queries, then tracked usage and time saved.

Request Acknowledgement Improvement: Built a standard acknowledgement template and trained the team on it.

ABP Testing: Built and QA'd ABP widgets and feeds across the publisher base, leading the initiative end to end.

Team Knowledge Pages: Built knowledge base pages used globally across teams.
